

Y2 SATs information

At the end of Key Stage 1 (year 2) children will be assessed by their teacher, with additional information gained from the Key Stage 1 SATs tests, against the national expected standards. The tests are a tool for teachers to help them measure your child's performance and identify their needs as they move into key stage 2.

The tests can be taken any time during May and they are not strictly timed. Children may not even know they are taking them as many teachers will include them into everyday classroom activities.

Teachers will use the results from these tests, along with the work your child has done throughout the year, to help them reach their own judgements about how your child is progressing at the end of key stage 1. These teacher assessment judgements will be reported to you by the end of the summer term.

In Maths, your child may sit the following: 1 Arithmetic booklet and 1 Mathematical reasoning booklet.

Arithmetic question examples

Arithmetic questions test your child's understanding and application of addition, subtraction, multiplication and division.

$9 - 3 =$

$10 \times 10 =$

$\frac{1}{4}$ of 8 =

$74 - 47 =$

Mathematical reasoning questions

Reasoning questions test your child's understanding and application of mathematical problem solving.

Sam plays a maths game.

Each  is equal to 2 points.

$$\text{leaf icon} + \text{acorn icon} + \text{acorn icon} = 10 \text{ points}$$

How many points is **one**  equal to?

points

Write five coins that have a total of 37p.

p	p	p	p	p

Put a **digit** into each empty box to make the calculation correct.

$$\begin{array}{|c|c|} \hline 1 & \\ \hline \end{array} + \begin{array}{|c|c|} \hline & 3 \\ \hline \end{array} = \begin{array}{|c|c|} \hline 2 & 9 \\ \hline \end{array}$$
